

DRY STEAM CLEANER SYSTEMS

GVC-1502 & GVC-1502-VAC – Tough and Effective

For power, portability, and versatility, the GVC-1502 dry steam cleaner is a great choice. It comes in two configurations, with and without integrated wet vacuum for extraction. Use it to clean a large selection of surfaces in a variety of environments, including work tables, seats, carts, beds, carpets, upholstery, desks, door handles and more. All without chemicals and large volumes of water. The secret is in the ultra-hot vapor steam. Its natural properties explosively loosen dirt, grease, and grime. It doesn't just clean. It also sanitizes your work surfaces. The high heat of the GVC-1502 kills bacteria, fungus, mold, mildew and other microorganisms on contact. An assortment of cleaning tools are included to suit a range of applications. By design, dry steam uses minimal amounts of water, but for applications where residual water is unacceptable, the GVC-1502-VAC and its integrated vacuum will leave surfaces dry.

FEATURES

- Stainless steel construction
- In operation refillable water tank
- Stainless steel boiler
- Adjustable dry steam volume
- Chemical-injection*
- Multiple cleaning tools
- Integrated vacuum

*Not included in GVC-1502-VAC version
