WEX-PRO SYSTEM

ODOR COUNTERACTANT/NEUTRAL CLEANER ALL PURPOSE – CONTROLLED SUDSING – BIODEGRADABLE

WEX-PRO #3 is a highly concentrated odor counteractant designed for elimination of all types of malodors from floors, walls and equipment.

DIRECTIONS FOR USE

PRESSURE WASHERS and SPRAY CLEANERS:

Use **WEX-PRO #3**, Odor Counteractant/Neutral Cleaner Concentrate (1/2 ounce is dispensed into each gallon of water) in both low and high pressure sprayers.

The low viscosity of **WEX-PRO #3** makes it particularly well suited for siphon type, manual and automatic spray deodorization.

FLOOR MOPPING and MANUAL CLEANING:

Use **WEX-PRO #3**, Odor Counteractant/Neutral Cleaner Concentrate for all wet mopping, damp mopping, manual cleaning and deodorization.

Because **WEX-PRO #3** is a neutral cleaner, it is free of harmful alkalies, acids and abrasives and can be used on all surfaces. It has an excellent detergent content so that the odor counteractant can penetrate deeply into the material to which it is applied in order to give a long lasting effect. It is also very mild to the skin.
